EDUCATION

Boston University

Bachelor of Arts in Computer Science and Economics

Boston, MA

Dec 2026

EXPERIENCE

Consultant

Oct 2024 – Present

The Andrew W. Mellon Foundation

New York, NY

- Designed and implemented **20+** Datadog test cases to ensure accurate monitoring and alert coverage.
- Developed a full-stack Next.js and React application to visualize a dynamic taxonomy tree from Airtable, rendering **1,000+** grants with hierarchical parent-child relationships to improve data navigation.
- Shipped a full-stack Next.js and React application with API integration to render **50+** artworks and locations from collector system data, delivered MVP **6 months ahead of schedule**.
- Contributed to the Mellon Foundation's main website, triaging and fixing **10+** UI/visual bugs across responsive breakpoints and browsers, improving layout stability and polish.

IT Intern

Jun 2026 – Aug 2026

Ford Foundation

New York, NY

- Engineered a **full-stack document verification app** using **NLPs, LLMs, OCR, and PDF parsing** to cross-check grant compliance data against Fluxx payments with state persistence and automated error recovery; presented a POC to leadership, securing buy-in to **expand system scope** to presidential workflows and grant compliance.
- Co-led the **Jama-to-Monday.com systems migration** by authoring schema field mappings, archive policies, and tracking dashboards, while managing **release readiness and status logs** to streamline new issue deployments.
- Diagnosed and isolated **10+ critical backend defects** including a high-impact **Payment Funding Source recalculation bug**.

IT Intern

Jun 2024 – Aug 2024

The Andrew W. Mellon Foundation

New York, NY

- Created and deployed **5 custom API endpoints** for Mellon's backend to streamline data migration.
- Facilitated a synchronization tool for Communications teams to manage data independently.
- Enabled migration of grants data from Fluxx to Contentful through middleware services.
- Enhanced data transfer time by **18%** by optimizing backend grant workflows.

IT Support Specialist (Client Technology Services)

Sep 2023 – Present

Boston University

Boston, MA

- Created and handled 500+ tickets on service now.
- Maintained 200+ printers and classroom tech equipment campus-wide.

PROJECTS

Stock Algo | *Python, XGBoost, LightGBM, Scikit-learn, Pandas*

Jul 2026 – Present

- Engineered a walk-forward ML backtesting engine over 20 years of S&P 500 data using an ensemble of XGBoost, LightGBM, and Gradient Boosting across 28 technical features, achieving 17% CAGR vs. SPY's 12.4%.
- Constructed a 76-test validation suite with Monte Carlo permutation testing ($p < 0.001$) and 10,000-path bootstrap confidence intervals, eliminating lookahead bias and state-pollution bugs.

BUFT | *Next.js, React, MongoDB, Mantine UI, Python, Git*

Nov 2024

- Scraped real-time menu data from BU Dining Hall sites.
- Allowed food selection, nutritional calculations, and virtual shopping cart.
- Led a team of 3 developers to ship the application within a 24-hour hackathon window.

TECHNICAL SKILLS

Languages: TypeScript, Java, Python, Kotlin, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: React, Node.js, WordPress, Material-UI, Shadcn/ui, Ant Design

Developer Tools: Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ

Libraries: pandas, NumPy, Matplotlib
